OPTIMIZED COST REDUCTION

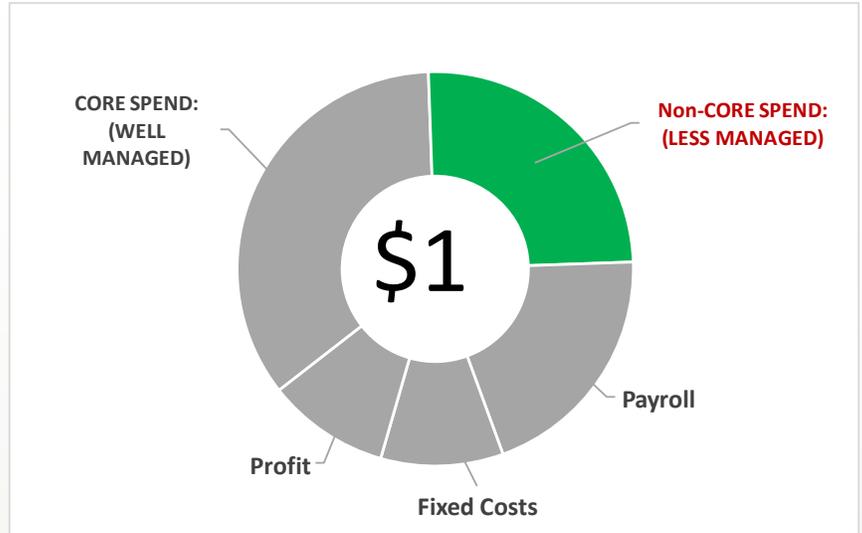

Procurement-One (PRO-ONE) helps companies flourish by implementing optimized cost reduction solutions in non-core (indirect) expense categories. Most companies manage their core (direct) supplier spend well, but don't have the resources or expertise to effectively manage their non-core spend.

Pro-One clients are free to remain with their current suppliers or upgrade to new suppliers, whichever they prefer.

NO OUT-OF-POCKET COSTS

PRO-ONE provides "risk-free" cost reduction solutions on a Performance Basis.

NON-CORE, THE SPEND "LESS MANAGED"

Non-Core (indirect) spend can account for up to 25% of each revenue dollar. Every percentage saved here has a direct impact to your company's profit margin.

Most companies manage well their Core (direct) spend with their suppliers, but they don't have the resources or expertise to effectively manage the wide categories of their non-Core (indirect) spend.

Corporate Spend with Suppliers

Five (5) Steps To Enjoy New Cost Reductions

Step 1: Free 30 Minute Phone Consultation with PRO-ONE.

Step 2: Free Opportunity Analysis Report (OAR).

Step 3: Upon Go-Ahead, PRO-ONE Performs Detailed Analysis and Validate Opportunities.

Step 4: Upon Client Approval, PRO-ONE Implement Savings Strategies and Achieves Results.

Step 5: Client Enjoy New Savings (At No Risk and No Out-of-Pocket costs).

PRO-ONE's staff has over 25 years experience in the areas of supply management, sourcing, strategic negotiations, and cost-reductions, and has achieved professional certifications in the areas of supply management and technology acquisitions: C.P.M., CPSM, CPIM, and CTPE.

Additionally, PRO-ONE has a strong network of industry experts and partners that add to our portfolio and provide robust cost-reduction solutions to unique and specialty requirements.

EFFICIENT Contingent Procurement Management Staffing

To meet the incremental procurement management staffing needs of growing start-ups and mid-size companies, PRO-ONE also provides unique procurement management staffing solutions, where you can enjoy procurement expertise in scalable blocks of 20 hours per month.
